Magnetic Fiber System: created to be the best

With the Magnetic Fibre System a fibreglass fabric is applied to the nail, to strengthen the (artificial) nail. This strengthening is finished using six products, presented on a practical display. Prefix increases retention to the natural nail. Miracle Blender softens the tip, in order to easily blend it. Fiber Fizz makes the fibreglass or silk transparent and invisible. The nail is build and finished with Resin Gel, in combination with the Brush on Activator. Finally, the refined Cuticle Oils, perfumed with lemon or apricot, care for the skin around the nail and helps to keep the artificial nail supple.

Why choose for the Magnetic Fiber System?

- No heat reaction
- For thin, weak or damaged nails
- Smooth finish: less filing
- Friendly to the natural nail
- Nail enhancement or repairs
- No unwanted odours
- Easy to learn
- Sublime adhesion
- Economical refill system
- Excellent value for money
